

TEMATI SPRAYSTICK

Sprayable non-chlorinated multipurpose contact adhesive in aerosols

- Quick drying
- Long open time
- Non-Chlorinated Formulation
- Tough bond
- Fast Flash off time.

CHEMICAL TECHNICAL DATA

Colour	Clear
System Flammability	Non-Flammable Adhesive in a Flammable Propellant
Flash-off Time	1 - 3 minutes depending on atmospheric conditions
Open Time	40 mins
Temperature Resistance	100°C
Shelf Life	12 months from date of manufacture

DIRECTIONS FOR USE

- This product is designed to be applied as a single sided bonding system applied directly to the subfloor. Prior to use, check compatibility. Spray a small test patch of the adhesive on the substrate. This product may degrade some substrates.
- Before bonding ensure that surfaces are clean, dry and free from dirt, dust, oil, loose paint, wax or grease, etc. For best results, the temperature of the adhesive and the surfaces being bonded should be between 16°C - 27°C.
- Use this product with correct PPE and with adequate ventilation.

SHAKE WELL BEFORE USE

1. Spray approximately 4" - 8" away at a 45–60-degree angle to the surface, applying a uniform coat of adhesive to obtain a good coverage of the surface.
2. Adhere surfaces and press together with adequate pressure. Allow 24 hours for the adhesive to fully cure.
3. After use to prevent a blockage in the spray nozzle, turn the can upside down and press the nozzle until adhesive spray is cleared. Replace the cap after use to protect the valve. Store according to the material safety data.

HANDLING & STORAGE

- Consult Safety Data Sheet prior to use.
- DO NOT store at temperatures over 50°C.
- Avoid exposure to direct sunlight.
- For optimum performance, store at 18°C during use, but must always be above 10°C.
- **DO NOT ALLOW THE PRODUCT TO FREEZE**
- DO NOT store directly on concrete floor.
- For Full Handling and Storage details Consult Material Safety Data Sheet Section 7.
- To prevent a blockage in the spray nozzle, after use turn the can upside down and press the nozzle until adhesive spray is cleared.
- Replace the cap after use to protect the valve.
- Do not use in confined spaces without adequate ventilation and/or respirator.
- For Full PPE Information Consult Safety Data Sheet Section 8.
- Always test product to determine suitability for your particular application prior to use in production.
