|                       |                                                                                                                   |
| Product name:         | Mounting track                                                                                                                                                                                      |
| Field of application: | Mounting track for fixing turning vanes at a distance of 60 mm                                                                                                                                      |
| Material:             | Strap steel 0,7 mm, zinc coated, according to DIN EN 10346                                                                                                                                          |
| Width:                | 98 mm                                                                                                                                                                                               |
| Unit:                 | Bundle a 30 m, length 3.000 mm                                                                                                                                                                      |
| Weight:               | 0,55 kg/m                                                                                                                                                                                           |
| Production method:    | Cold roll forming                                                                                                                                                                                   |
| Remarks:              | <p>Pre-punched at a distance of 60mm down each length<br/>For use in conjunction with related Turning vane</p>  |
