

Article number:	306300010	
Product name:	Turning vane	
Field of application:	Turning vane for use in ventilation systems to reduce noise and friction in air turns	
Material:	Strap steel 0,4 mm, zinc coated, according to DIN EN 10346	
Width:	68mm	
Unit:	Bundle a 30 m, length 3.000 mm	
Weight:	0,55 kg/m	
Production method:	Cold roll forming	
Remarks:	Made from a single split strap with central seam Notching at a distance of 12mm down full length of central seam for highest stability No risk of vane splitting For use in conjunction with related Mounting track
